MERGING TEMPLATES

To insert a design access your **PROJECT** folder from the right hand toolbar.

Then select the **DESIGNS**, which shows all other current designs in your account.

Then click on the Thumbnail of the document you would like to insert. This works very similarly to inserting a photo.

THE FILE YOU ARE INSERTING WILL AUTOMATICALLY RESIZE TO THE DIMENSIONS OF YOUR CURRENT DOCUMENT.

There are several ways to merge templates. If you only have a few pages to insert this is the easiest way.
